

## Letter of attestation for public release

*Purpose: to show proof that a security assessment was performed and to highlight the results.*

**SecurITUM** is a consulting firm carrying out security audits, penetrations tests as well as security trainings, concentrating on financial and e-commerce sectors. Founded in 2009, SecurITUM is currently a team of 40+ cybersecurity professionals, creating one of the biggest penetration testing company in Central Europe.

We hereby confirm that we have conducted a security assesment for **eRecruitment Solutions** that covered the following scope/subject:

- Web applications: system.erecruiter.pl and auth.erecruiter.pl

The project has been carried out in July 2022 in accordance with generally accepted methodologies, including OWASP Top 10 and SANS Top Issues as well as internal industry practices developed by SecurITUM.

Security assessment was time-limited to nine man-days during which auditors identified one critical vulnerability as well as one medium-severity vulnerability. Retests were carried out in November 2022 and confirmed the correct elimination of all significant vulnerabilities.

Sincerely,

Chairman of the Board

Radosław Stachowiak
