

Letter of attestation

for public release

Purpose: to show proof that a security assessment was performed and to highlight the results.

Securitum is a consulting firm carrying out security audits, penetrations tests as well as security trainings, concentrating on financial and e-commerce sectors. Founded in 2009, Securitum is currently a team of 40+ cybersecurity professionals, creating one of the biggest penetration testing companies in Central Europe.

We hereby confirm that we have conducted a security assesment for **eRecruitment Solutions** that covered web applications available at `system.erecruiter.pl` and `auth.erecruiter.pl` as well as eRecruiter mobile application for platforms Android oraz iOS

The base audit was carried out out in July and August 2023 in accordance with generally accepted methodologies, including OWASP Top 10 and CWE/SANS Top 25 Software Errors as well as internal industry practices developed by Securitum.

Security assessment was time-limited to nine (web applicaton) and three and a half (mobile application) man-days as selected by customer.

Auditors identified two high vulnerabilities and one medium in web application and no significant vulnerabilities in mobile applications. At the same time, we confirm that all above mentioned security issues were identified as fixed during the re-test performed in January 2024.

Sincerely,
Chairman of the Board
Radosław Stachowiak
